1. Find the text in the first paragraph (stripping out the html), then set the html of the last paragraph to show it is just text (the red bold is gone).

```
<!doctype html>
<html lang="en">
<head>
<meta charset="utf-8">
<title>text demo</title>
<style>
p {
color: blue;
margin: 8px;
}
span {
color: red;
}
</style>
<script src="http://code.jquery.com/jquery-1.9.1.js"></script>
</head>
<body>
<span>Test</span> Paragraph.
<script>
<!--INSERT YOUR JQUERY CODE HERE - - >
```

</html>

```
$(document).ready(function(){

let firstText = $("body p").first().text();

$("body").children().filter("p").eq(1).html(firstText);

});

</script>
</body>
```

2. Write jQuery code to create a red background for the level-2 list items.

## Answer:

```
$(document).ready(function(){
    $(".level-2").find("li").css("background-color","red");
});
```

3. Write jQuery code to select the element that comes immediately before item three and change its background color to blue.

```
  li>list item 1
  li>list item 2
  li class="third-item">list item 3
  li>list item 4
  li>list item 5
  li>list item 5
  ready(function(){
    $(".third-item").prevAll().css("background-color","blue");
});
```

4. Let us one additional requirement for the "Go Vegetarian" button of the Webville Eatery Menu described in Chapter 4 of Head First jQuery: "Turkey" in the ingredient list of any entree is replaced by "Mashed Potatoes" in the vegetarian version. You may assume there is a class "turkey" that identifies these items in the list. Describe the changes to the Javascript (jQuery) code to implement this new requirement.

```
Answer:
```

\$(".turkey").replaceWith("Mashed Potatoes

5. Write Javascript (jQuery) code to change the color of the parent and grandparent list items of the span of text ("some text") in the following to green.

```
<!DOCTYPE html>
<html>
      <head>
      <script>
             $(document).ready(function(){
             <!--INSERT YOUR JQUERY CODE HERE - - >
             });
      </script>
      </head>
      <body>
             <div class="ancestors">
                    <div> (great-grandparent)
                    (grandparent)
                           (direct parent)
                           <span>some text</span>
                           </div>
             </div>
      </body>
</html>
Answer:
$(document).ready(function(){
      $("span").parentsUntil("div").css("color","green");
});
```
